**Build a web app that will integrate with our API. The app should contain a payment form that can perform a server-to-server payment for the specified amount. The form can look something like this.**

Payment Form

Amount

5

Currency

EUR

○ Payform ● S2S

Card Number

Cardholder Name

Expiration Date

MM/YY

Security Code

Pay

The app should be built with Nest.js and demonstrate your approach to testing, monitoring, observability and security.
